

MAGDALENA DJUULUME

Aspiring Data Engineer

ABOUT ME

I am a passionate and self-driven aspiring Data Engineer with a solid academic foundation in Data Engineering and hands-on project experience. Skilled in Python, SQL, and problem-solving, I enjoy building data-driven solutions and thrive in collaborative environments. My journey through hackathons, tutoring, and leadership has shaped me into a resilient, analytical, and innovative thinker eager to grow in the data engineering field.

EDUCATION

BEng in Data Engineering

Stellenbosch University
2022-2024

High School

Haimbili Haufiku SSs
2017-2021

SKILLS

- SQL & Database Management
- Python Programming
- Data Analysis
- Problem Solving & Critical Thinking
- Team Collaboration
- Leadership & Mentorship

LANGUAGE

- English
- Oshiwambo

+264-81-715-1384

Kaxumba Kandola St.,

EXPERIENCE

- Tutor | Computer Science** 2023- 2024
Stellenbosch University
 - Provided mentorship and academic guidance to peers, developing communication and leadership skills.
 - Organised and explained complex concepts in a clear, client-oriented manner.
- University Hackathon Finalist** 2024
Stellenbosch University
 - Participated in a competitive data science hackathon where you applied problem-solving and analytical thinking under pressure.
 - Collaborated in a team to approach real-world challenges using mathematical models.
- Academic Advisor in Residence** 2023
Heemstede Ladies Residence
 - Mentored fellow students and guided them academically, especially in adjusting to university-level coursework.
 - Encouraged resilience and adaptability in a high-performance environment.
- High School Head Girl** 2019- 2020
Haimbili Haufiku SSS
 - Gained strong communication and leadership skills that help in creating a positive learning environment.
